NewYorkeR

Dress for the moment.

WE ARE HIRING

(Senior) Data Scientists
(Senior) Data Engineers

New Yorker

NEW YORKER is one of the **leading German fashion retailers** with over **1000 stores in 40 countries**. Flat hierarchies and agility in a fast moving market have helped to make NEW YORKER a thriving business for 40 years running.

o Since 1971, headquartered in Braunschweig, Germany

o Over 16.000 New Yorkers

o Over 1.000 stores in 40 countries and 4 continents (Europe, Asia, Africa, America)

o Over 850 000 square meters of retail space

o 37 Million customers per month

Use Cases

o Ordering
  o What colours and styles will work well next season?
  o How much of an item do I order?
  o What should the size distribution be?

o Distribution
  o How do I distribute the articles among my stores?
  o When do I re-stock?

o Pricing
  o What should my initial price point be?
  o When should I mark down items and by how much?

o Recommender Systems

o … many more!
